AOS Intermediate Ski

The AOS Ski is without a doubt the best intermediate sit-ski in the world today.

Whether using the ski for recreational or learning the slalom course you will fall in love with this ski. This is a hard hitting ski in a forgiving package.

This ski can also be used as an entry level competition ski for larger individuals

! IFR Core

Infusion Flow Reinforcement (IFR), provides maximum skin to core bond while maintaining the physical integrity of the core, giving you an incredibly strong ski in a light package.

! Adjustable Toe Plate

Includes Cool White base plate and adjustable Velcro strap.

! Custom Graphics

Send us your Logo or graphics and we can customize the graphics of this ski for your program.

Water Ski	Length	Width	Rocker	Weight	Fin
AOS Ski	85.5"	13.875"	1.00"	10.00 Lbs	Aluminum

Due to our ongoing improvements to our products Liquid Access reserves the right to change specifications and design without notice. Further, not all options offered are compatible with all sit-ski configurations.
