## CGS Ski

The CGS Ski is built with the input of WASDA water ski champions.

It is a high end competition slalom ski designed for the disabled water skier who likes to win.

The CGS ski is built to run the outer course at more than 24 mph and cuts the wake with little effort.

Once tweaked to the rider this ski will make you a force to be reckoned with and take you over the edge as a competitive skier.

- **IFR Core**  
Infusion Flow Reinforcement (IFR), provides maximum skin to core bond while maintaining the physical integrity of the core, giving you an incredibly strong ski in a light 10 lb package.
- **Graphite Reinforced**
- **Choice of Toe Plates**  
Includes Cool White base plate and adjustable Velcro strap or the non adjustable strap
- **Competition Fin**
- **Custom Graphics**  
Send us your logo and we can incorporate it into your ski graphic

**Price \$1795.00**

Water Ski	Length	Width	Rocker	Weight	Fin
CGS Ski	85.00"	11.05"	1.16"	8.04 Lbs	Competition
