## Phoenix Ski

The Phoenix Ski is built around our very successful Rocket Ski, it is a high end competition slalom ski designed for the disabled water skier who likes to win.

The Phoenix ski is built to run the outer course at 24 mph and faster and cut the wakes with little effort.

With the seat properly tweaked this ski will go where you want it.

### ! IFR Core

Infusion Flow Reinforcement (IFR), provides maximum skin to core bond while maintaining the physical integrity of the core, giving you an incredibly strong ski in a light 10 lb package.

### ! Graphite Reinforced

### ! Choice of Toe Plates

Includes Cool White base plate and adjustable Velcro strap or the non adjustable strap

### ! Competition Fin

### ! Custom Graphics

Send us your logo and we can incorporate it into your ski graphic

Water Ski	Length	Width	Rocker	Weight	Fin
Phoenix Ski	85.00"	11.05"	1.16"	8.04 Lbs	Competition

Due to our ongoing improvements to our products Liquid Access reserves the right to change specifications and design without notice. Further, not all options offered are compatible with all sit-ski configurations.
